Work Experience

Canva

Jul 2023 - Present

- Designer Remote
I don't work for companies or chase internships - I work for myself, driven by passion and guided by faith.
Since 2023, I've been designing logos, posters, and thumbnails purely out of love for creativity - not for recognition, but for self-expression.
I believe true growth comes from discipline, intention, and walking your own path - not from job titles or external validation.

Academic projects

Image Search Engine

Jun 2024 - Jun 2024

Created a fully responsive Image Search Engine using HTML, CSS, and JavaScript that enables users to search and view high-quality images based on custom keywords.

Integrated external image APIs (like Unsplash or Pexels) using an API key, and dynamically rendered results in a clean grid layout for a smooth and visual browsing experience.

Notes App

Sep 2024 - Sep 2024

Developed a fully functional Notes App using HTML, CSS, and JavaScript, enabling users to effortlessly create, edit, and delete notes within a clean, responsive interface.

Implemented LocalStorage for offline data persistence, ensuring notes remain saved even after refreshing or closing the browser.

Achievements

- Written 140+ C Language Program
Written 100+ C++ Language Programs
Built 15+ C Language Project
Built 10+ C++ Language Project
Created 30+ web development projects
Deployed 20+ projects on GitHub
